PRELIMINARY REPORT

TO HIS EXCELLENCY,
WILLIAM, G. CONLEY,
GOVERNOR OF WEST VIRGINIA.

SIR:

I herewith submit to you my tenth Annual Report of the Department of Mines, it being the forty-seventh annual report of the condition of the coal industry of the state.

The period covered by this report is from January 1, 1929, to December 31, 1929, and is compiled from the annual reports as submitted by the mine operators. It is condensed in form and only those statistics of general importance and necessary for the information of the public are given in detail.

PRODUCTION OF COAL AND COKE

Five hundred and eighty-seven companies, operating 888 mines and employing 107,393 men, reported a production of 139,297,946 tons of coal and 499,357 tons of coke, an increase in the coal production of 5,431,359 tons, and in the coke production of 68,289 tons.

Below you will find a comparison of the production of coal and coke for the calendar years 1928-1929, together with the change in same.

Product	1929	1928	Increase	Percentage
Coal	139,297,946	133,866,587	5,431,359	4.07
Coke	499,357	431,068	68,289	15.84

During the year 1929 the coal production of the state increased 4.07 per cent over the production for the previous year, and the coke manufactured increased 15.84 per cent during the same period. Below you will find the estimated value of both coal and coke for the year 1929.

Total value of coal produced (139,297,946 tons)	\$ 215,911,816.30
Value of coal used in operating (590,866 tons)	915,842.30
Value of coal sold local trade and tenants (1,917,591 tons)	2,972,266.05
Value of coal used in coke ovens (837,788 tons)	1,298,571.40
Value of coal shipped from mines (134,451,701 tons)	208,400,136.55
Value of coal mined by small wagon mines (1,500,000 tons)	2,325,000.00
TOTAL	\$ 215,911,816.30
Value of coal sold (137,869,292 tons)	\$ 213,697,402.60
Value of coke sold (499,357 tons)	1,802,678.77
TOTAL	\$ 215,500,081.37

The coal produced was disposed of in the following manner:

Produced by small country mines—sold at mines.....	1,500,000
Used in operation of mines.....	590,866
Furnished local trade and tenants from commercial mines.....	1,917,591
Used in coke ovens.....	837,738
Shipped from mines.....	134,451,701
TOTAL.....	139,297,946

The tonnage produced during the year originated in the several geographical districts, and is compared with the tonnage for 1928 as follows:

DISTRICT	1929	1928	Increase	Decrease
Panhandle.....	6,321,594	7,110,472		788,878
Fairmont.....	23,302,235	23,581,049		278,814

New River.....	27,244,121	26,112,118	1,132,003	
Logan.....	19,965,162	19,442,332	522,830	
Pocahontas.....	29,540,108	25,414,288	4,125,820	
Mingo.....	6,117,997	5,306,882	811,115	
Small Mines.....	1,500,000	1,500,000		
TOTALS.....	139,297,946	133,866,587	5,431,359	

During the year 1929 there were 2,784 mining machines in use at 768 mines, employing 51,358 men and producing 117,552,387 tons of coal, which is 84.47 per cent of the total production of the state. The following table exhibits the growth of machine mining since the year 1897.

TOTAL		303,258 Acres

The mines of the state averaged 207 days for the past year.

COKE OVENS AND COKE PRODUCED

Coke plants in the state during the year reported a total of 1,960 coke ovens, of which number 1,118 were in actual operation.

There were 837,788 tons of coal converted into coke, which gave a yield of 499,357 tons of coke and gave employment to 438 persons. The increase in the production of coke as compared with the previous year was 68,289 tons. The average price per ton of coke was \$3.61.

MEN EMPLOYED

During the year 1929 there were employed at the mines and coke ovens within the state an average of 107,393 persons. Of the total number employed there were:

9,487	Pick Miners
46,569	Machine Miners
4,789	Machine Runners and Helpers
30,213	Outside Laborers
438	Coke Workers

Counting the superintendents, mine foremen, fire bosses, store managers, store and office clerks, it would be safe to add five persons per mine employed in these capacities. Basing this estimate on 888 producing mines, it would make a total of 4,440 persons, or a grand total of 111,833 employees directly connected with the operation of the mines.

The nationalities of the persons employed in and around the mines are given in a tabulated form in another part of this report, and the totals of the various nationalities are as follows:

American (White).....	65,325
Negros.....	23,941
Italians.....	4,179
Hungarians.....	3,473
Polish.....	2,335
Slavish.....	1,081
Russians.....	1,026
Austrians.....	816

Lithuanians.....	520
Other Nationalities.....	3,024
TOTAL.....	107,393

SHIPMENTS OF COAL AND COKE

For the year 1929 the operating coal companies of the state reported 133,146,059 tons of coal and 499,357 tons of coke shipped over the railroads from the mines in the state. They also reported for the same period 1,305,642 tons of coal shipped by river, 1,153,522 tons of which originated and were floated down the Great Kanawha, and 152,120 tons were shipped on the Ohio River. This does not include the tonnage of fuel consumed by water craft and local river trade. No coal was shipped on the Monongahela River and no coke was shipped by water, either on the Kanawha, Monongahela or Ohio Rivers during the year.

SELLING PRICE OF COAL AND WAGES PAID

During the year 1929 the average price received by pick miners throughout the state for mining run-of-mine coal was 77 cents. The average tonnage produced by each pick miner was 2,134 tons. The average annual wage of pick miners (all pick miners included) was \$1,643.18.

The average selling price of coal shipped from the mines of the state was \$1.55 per ton run-of-mine coal.

Coke was sold f. o. b. at the ovens during the year at an average price of \$3.61 per ton.

ACCIDENTS

There were 489 lives lost in connection with the mining industry of the state during the year covered by this report. Of this number, 464 were killed inside the mines and 25 outside.

There were 4,801 non-fatal accidents at the mines during the same period, 4,247 of which were inside the mines and 554 outside.

Following is a list embracing all accidents in which two or more men lost their lives, giving the cause and date, number killed and where the accidents occurred:

County	Name of Company	Name of Mine	Date	Number Killed	Cause
Fayette	Kingston Poca. Coal Co., Inc.	Kingston	1-26-29	14	Local Gas explosion

SUMMARY OF ACCIDENTS INSIDE THE MINES FOR THE YEAR 1929

Number of employees inside	91,058
Number of days mines were operated	207
Number of persons killed inside	464
Number of days work accomplished	18,849,006
Number killed per 1000 employees inside	5.10
Number killed per 1000 days worked inside	.0246
Number injured non-fatally inside	4,247
Number injured per 1000 employees inside	46.64
Number injured per 1000 days worked inside	.2253
Number inside employees per each fatality	196

TONNAGE PER FATALITY

Since the year 1883, the average number of tons of coal produced per each fatality inside the mines was 199,054, including the period covered by this report, which is 300,209 tons. At the mines where fatal accidents occurred, there was an average of one life lost for each 181,878 tons of coal produced. The 464 lives lost inside the mines during the year occurred at 314 mines, employing 53,689 persons inside and producing 84,391,653 tons of coal, while the other mines, at which not a single life was lost inside the mines, produced 54,906,293 tons. During the year covered by this report the causes of accidents in which lives were lost inside the mines are summarized as follows:

Killed by explosions (all forms)	28
Killed by falls of roof and coal	266
Killed by mine cars and motors	125
Killed by electrocutions	18
Killed by other causes	27
TOTAL	464

Since 1897 there have been killed inside the mines of the state as follows:

Killed by fall or roof and coal	5,655
Killed by mine cars and motors	1,620
Killed by gas explosions	583
Killed by dust explosions	1,037
Killed by electrocutions	445
Killed by other causes	1,301
TOTAL	10,641

The experience of persons killed and injured for the past twenty-eight years, from 1901 to 1929 inclusive, is as follows:

Having an experience of one year or less.....	5,951
Having an experience of two to five years.....	12,000
Having an experience of six to ten years.....	8,662
Having an experience of eleven to twenty-five years.....	9,306
Having an experience of twenty-five to fifty years.....	2,101
Having an experience of many years.....	1,673

*Eighteen months, July 1, 1924 to December 31, 1925.

The foregoing contains only a summary of the most important information contained in this report, but a reference to the pages following will reveal the condition of the mining industry of the state and show something of its importance in our industrial development.

All activities of this department are for the purpose of conservation of life and limb, and also for the protection of property. We are constantly inspecting mines and making specific recommendations for the elimination of dangerous practices and conditions.

Due to the constantly declining market prices of coal, the coal operators are forced to economize to the fullest extent. Sometimes this economy is practiced to the extreme. Fortunately we have been able in most cases to convince those in charge of the mines that economy should be practiced consistent with maximum safety, that is, any saving of money that will increase the hazard exposure of the workmen is bad policy and will eventually lead to an increased number of accidents and a general run down condition of their mines.

The wide differential in freight rates on the shipment of West Virginia coal to the lakes places a tremendous handicap on our coal operators, one that is not only unjust, but, if continued, will result in the closing of many of our mines and severe idleness and hardships in our mining communities. It is to be hoped that we will soon get relief from the Interstate Commerce Commission, and these differentials will be entirely eliminated or at least greatly reduced.

The sectional safety meetings held throughout the mining regions have been and are responsible for renewed interest in accident prevention.

State Safety Day was held in Charleston and was productive of much good. The department still continues to organize and support mining institutes at the various active centers throughout the coal fields. Some of these institutes have hundreds of members, and they have proven to be a splendid medium whereby the workmen and officials can meet to foster the increase and diffusion of knowledge relating to coal mining, to encourage education in practical and scientific mining, to promote study and research into mining problems and also advance the mutual interests of their membership.

The safety clubs and safety courts are still functioning in a splendid manner, and have been most helpful in bringing to the workmen and their families the necessity for concerted action in accident prevention.

To the miners, officials and operators, I extend my sincere appreciation for their continued cooperation and assistance, without which we could not have functioned properly.

It is also my pleasure to express to your Excellency my sincere thanks for the splendid support I have at all times received from you in all of our activities toward safer and better mining.

Respectfully submitted,

R. M. LAMBIE,
Chief of Department of Mines.
